

happy mail

noun: hap·py \ 'ha-pē\ māl

- : notably fitting, effective, or well adapted : felicitous
 - : enjoying or characterized by well-being and contentment
 - : expressing, reflecting, or suggestive of happiness
 - : having or marked by an atmosphere of good fellowship
- +
- : material sent or carried in the postal system

As I was out the other day I found something that made me think of you... instead of letting the moment pass me by and the item fade from memory, I decided to send you a little "happy mail" to let you know you are thought of far more than you realize.

If this made you smile, please share your joy by sending some happy mail on to someone else so they know they are thought of with love and fondness as well.
